2005 National Repair & Remodeling Estimator Apr 09 2022 "Current labor, material and equipment costs for repair and remodeling work."

Housing Repair Cost Guide 2006 Jan 18 2023
Intended for surveyors, this guide provides guidance on the costs of repair works and improvements identified in a residential survey.

The Red Book Unit Cost Estimator for Construction & Insurance Damage Repair Nov 23 2020 THE RED BOOK A UNIT COST ESTIMATOR FOR

CONSTRUCTION & INSURANCE DAMAGE

REPAIR The Red Book has been a trusted estimating guide for contractors and insurance adjusters since 1978. As a true unit cost estimator, it is the perfect tool for generating fair market price estimates from smaller jobs to large projects. Thousands of estimates have been written to date by contractors of new construction, remodeling and damage repair as well as property loss adjusters. Building maintenance companies and property appraisers have also used The Red Book as a guide and reference in their line of work. Costing Our unit cost format serves the requirements of the insurance companies for separating labor and material for each individual item as well as providing for contractors the details for a clear understanding of the work description and costing. The latest edition has the hourly rates associated with the various construction building trades used in The Red Book. This enables The Red Book users to effectively and efficiently adjust construction costing for their areas. The lower and upper range of each labor rate is provided to help facilitate the bidding process. Since the Red Book is written by a contractor and continues to be maintained by contractors, it includes the details needed to ensure fair and efficient bidding of jobs. Feedback from its users report estimate accuracy generally falling within 3-5% plus or minus of actual job

costs. Contents Each chapter has its own table of contents to easily find any of the over 14,000 items, covering all aspects of residential construction from remodeling, damage repair and new construction. And each chapter groups the multiple items associated with a task to minimize the need to jump around the book looking for items. Contact Us The Red Book Unit Cost Estimator for Contractors and Adjusters is truly the trusted estimating book for use in the office or in the field that no construction estimator should be without. Find out more by visiting: <http://www.redbookcompany.com> Our Customers Contractor Builders (Residential & Light Comm.)
