THEY DESTROYED THEIR HOMEWORLD Billions of years ago, an ancient society that was millions of light-years from Earth turned a beautiful flower into a weapon. It fed off all types of life, from animals to bacteria to the minerals at the core of the planet. Their roots and vines had razor-sharp thorns that delivered an acid into the systems of its victims, breaking down their bodies into a consumable slime. The plants were intelligent and possessed a telepathic ability that it would use to manipulate its victims.

The first of these creations dispersed millions of seeds around its home planet. For thousands of years, these flowers grew to the size of cities and overran this alien world. Eventually, all the animals, insects, birds, plants, and people were consumed by these monstrous flowers, then they began eating away at the planet itself. The world exploded, sending debris across the universe carrying the seeds of these monsters. NOW THEY ARE HERE One of these flowers has been growing in a forest in Littleton, IN. By manipulating little girl from a broken home with its telepathic power, the flower is repeating the natural cycle on Earth that has occurred on other planets. The concept for Flowers for Lisa emerged when Morell gave his wife, Lisa, a photograph of flowers on her birthday. "Flowers are part of a long tradition of still life in art," writes Morell. "Precisely because flowers are such a conventional subject, I felt a strong desire to describe them in

new, inventive ways." With nods to the work of Jan Brueghel, Édouard Manet, Georgia O'Keeffe, René Magritte, and others, Morell does just that; the images are as innovative as they are arresting. *Flowers Coloring Book: Perfect illustrations* ✓ Each image is printed on a separate page to prevent bleed-through ✓ You can display your artwork with a standard 8.5" x 11" frame ✓ You will be offered a lovely, high-quality illustrations in black and white with a color option for its coloring ✓ This remarkable coloring book will give fans positive emotions ✓ This book is a godsend for those who want to unleash their artistic potential ✓ Coloring is fun for kids and has lots of benefits including: Improves fine motor skills; Prepares children for school; Contributes to better handwriting; Color awareness and recognition; Improves focus and hand eye coordination; Perfect gift for kids.
