Elevating Platforms Oct 29 2020 Cherry-pickers were a good way for firemen to get to places that traditional aerial ladders weren't able to reach. This led to the revolutionary elevating platform, or "Snorkel", as they were referred to by many firemen. They have served many departments large and small across North America over the last 45 years. At the height of their popularity they were seen on the front covers of newspapers across the country bringing major fires under control and rescuing people. Elevating platforms, with their articulating booms and large area platforms, offer firemen the flexibility to be positioned in places that would otherwise be impossible to reach. They can deliver a 1000 gallons of water per minute through a master stream to the seat of the fire or quickly rescue victims from upper floors. A concise history of each company that built elevated platforms is provided along with a photographic timeline of the various rigs they were built on. This book features such companies as the Pitman Snorkel, American

Lafrance Aero-Chief, Hi-Ranger, Calavar, and Bronto Skylifts. It also covers a few remaining companies that each built only a small number of elevating platforms. This book documents their beginnings in 1958 up to the impressive articulating platforms of today.

Hey Ranger 2 Dec 23 2022 In this sequel to the wildly successful *Hey Ranger: True Tales of Humor and Misadventure from America's National Parks*, former ranger Jim Burnett casts his net globally in search of the most outrageous and humorous stories of man in his eternal quest to experience the natural world. Burnett tells of campers being belted by mysterious objects falling from the sky, like potatoes and ice cream; wildlife photos that went awry, including a ground squirrel that outwits a photographer; dumb crooks in parks, such as the drunk driver who mistakenly knocked on a judge's door to report an accident; and drivers who went over the hill and into the woods instead of to Grandma's house. Burnett also assembles contenders for the strangest questions ever asked of a park ranger, lessons on how not to pick a campsite, life lessons you can learn from a canoe trip, as well as some classic bear stories. As always, Burnett's stories are meant to inform as well as entertain, and serve as cautionary tales on how not to become "a victim of your vacation." Told in Burnett's classic, conversational style, *Hey Ranger 2* will not disappoint.
