***A short, popular biography of the famous French Saint known as "The Father of his Country" for his remarkable charities. In early life he was captured and enslaved by the Moslems in Africa, but he escaped, returned home and did great work for God. He was canonized in just 77 years. Here is a popular biography for young and old of one of the most famous Saints of the Church and a model of charity for all. This book appraises the contribution of Paul Dukas (1865-1935) to a wide variety of French musical practices. As a composer, critic, artistic collaborator and teacher, Dukas was central to the fin de siècle and early twentieth-century Paris musical scene (and more broadly to the French scene). Significantly, his compositional style mediated tradition through the modern language of his present, while his critical writings pioneered a new mode of musical discourse in the French press. Of further interest are Dukas's professional relationships with iconic figures such as Gabriel Fauré and Claude Debussy, and***

***his role in fostering the next generation of French composers. In addition to mentoring famous names such as Olivier Messiaen and Tony Aubin, he staunchly supported his female students, notably Elsa Barraine, Claude Arrieu and Yvonne Desportes. This unique essay collection offers a panoramic perspective on a comparatively neglected French musician. Paul Dukas: Legacies of a French Musician traces two aspects of his work: Part I treats Dukas as a composer, thinker and artistic collaborator; Part II constructs his intellectual legacy as seen in his creative and pedagogic endeavours. This book is essential reading for anyone interested in fin de siècle and early twentieth-century French music, women in French music, music criticism and composition education in the Paris Conservatoire. Vincent de Paul, the Lazarist Mission, and French Catholic Reform offers a major re-assessment of the thought and activities of the most famous figure of the seventeenth-century French Catholic Reformation, Vincent de Paul. Confronting traditional explanations for de Paul's prominence in the dévot reform movement that emerged in the wake of the Wars of Religion, the volume explores how he turned a personal vocational desire to evangelize the rural poor of France into a congregation of secular missionaries, known as the Congregation of the Mission or the Lazarists, with three inter-related***

***strands of pastoral responsibility: the delivery of missions, the formation and training of clergy, and the promotion of confraternal welfare. Alison Forrestal further demonstrates that the structure, ethos, and works that de Paul devised for the Congregation placed it at the heart of a significant enterprise of reform that involved a broad set of associates in efforts to transform the character of devotional belief and practice within the church. The central questions of the volume therefore concern de Paul's efforts to create, characterize, and articulate a distinctive and influential vision for missionary life and work, both for himself and for the Lazarist Congregation, and Forrestal argues that his prominence and achievements depended on his remarkable ability to exploit the potential for association and collaboration within the dévot environment of seventeenth-century France in enterprising and systematic ways. This is the first study to assess de Paul's activities against the wider backdrop of religious reform and Bourbon rule, and to reconstruct the combination of ideas, practices, resources, and relationships that determined his ability to pursue his ambitions. A work of forensic detail and complex narrative, Vincent de Paul, the Lazarist Mission, and French Catholic Reform is the product of years of research in ecclesiastical and state archives. It offers a wholly fresh perspective on the***

***challenges and opportunities entailed in the promotion of religious reform and renewal in seventeenth-century France. "Set amidst the French Catholic Reformation, Bernard Pujot introduces the reader to a star-studded cast of political, religious, and social leaders of the age. Kings, queens, popes, ministers, bishops, and habitués of salons become associates of St. Vincent de Paul as he sets out to recruit an army of elite to minister to the poor and marginalized. In the process, one discovers the complex personality, comprised of both human and saintly qualities that characterized Vincent de Paul. Vincent de Paul, the Trailblazer portrays the age and the man in rich detail." --Joan L. Coffey, Sam Houston State University This series of bibliographical references is one of the most important tools for research in modern and contemporary French literature. No other bibliography represents the scholarly activities and publications of these fields as completely. France experienced a period of crisis following World War I when the relationship between the nation and its colonies became a subject of public debate. The French Imperial Nation-State focuses on two intersecting movements that redefined imperial politics—colonial humanism led by administrative reformers in West Africa and the Paris-based Negritude project, comprising African and Caribbean elites. Gary***

***Wilder develops a sophisticated account of the contradictory character of colonial government and examines the cultural nationalism of Negritude as a multifaceted movement rooted in an alternative black public sphere. He argues that interwar France must be understood as an imperial nation-state—an integrated sociopolitical system that linked a parliamentary republic to an administrative empire. An interdisciplinary study of colonial modernity combining French history, colonial studies, and social theory, The French Imperial Nation-State will compel readers to revise conventional assumptions about the distinctions between republicanism and racism, metropolitan and colonial societies, and national and transnational processes.
