The three-level course that's in touch with young learners Four fantastic unit themes in each cycle put students in touch with new friends and experiences Wonderland makes learning English a magical, memorable experience, by using the familiar fantastic world of Disney characters that children know and love. A child's world is filled with extraordinary things - vivid imagination, imaginary friends, simple, Zen-like naiveté, and a peculiar sense of right and wrong, good and evil. Sylvia Browne recognises these as signs that all children have extraordinary psychic gifts and abilities - including ourselves as children. PSYCHIC CHILDREN is written from Sylvia Browne's personal experience. After her own psychic abilities were revealed at the age of three, her mother tolerated but never encouraged her startling talent. Browne's own son would exhibit amazing abilities of his own as a toddler, which she fully embraced and supported. Over a lifetime, Sylvia Browne has learned that psychic gifts are present at an incredibly tender age. They are, in her view, special blessings from God. Some children learn to develop them while others are pressed to ignore them. In PSYCHIC CHILDREN she illuminates the phenomenon, issuing a call to society for more understanding and acceptance of these remarkable children. GoGetter is a new multi-level secondary course designed to inspire 21st Century learners and help them achieve their language goals. Exam practice is seamlessly integrated and innovative multimedia includes authentic BBC content which students can access in the classroom or at home. A story-based course that introduces young children to English first through listening and speaking, and then provides a gentle introduction to reading and writing. This volume collects many of the key essays exploring the possible relationships between the concepts of law and morality, a central concern of contemporary philosophizing about law. It is organized around five conceptual issues: classical natural law theory; legal positivism's separability thesis; Ronald Dworkin's constructive interpretivism; inclusive legal positivism's assertion that there can be legal systems with moral criteria of legality; and the relevance of morality and moral theorizing in theorizing about the concept of law and associated legal concepts. Each of the essays makes an important contribution toward addressing these issues.
