My Memoirs Feb 13 2022 Alfred von Tirpitz (1849-1930), German Grand Admiral and Admiralty State Secretary, had a very strong influence on naval politics and the organization and development of the imperial fleet. His aim was to create a sea power equally strong as the British one and to dominate the territories of the North Sea. He was also responsible for establishing a trading port and military base in Qingdao, China. In his memoirs, Tirpitz' individual biography is closely linked with German political and military history of late 19th and early 20th century. Originally, Tirpitz wrote this book

to justify his political ideas and decisions. Reprint of the original edition from 1919. Volume 2 of 2.

Reinforced Concrete Design Jun 05 2021 This work provides a straightforward introduction to the principles and methods of design for concrete structures. It is directed primarily at students and young designers who require understanding of the basic theory and a concise guide to design procedures. The theory and practice described in the book are of a fundamental nature and will be of use internationally. Limit state concepts are used, and the calculations are in SI units throughout. The principal aim of the fifth edition has been to update the text to incorporate changes and amendments introduced in the 1997 version of BS8110 and to include new material such as pile cap design. A complete new chapter on composite construction has been introduced. Important equations that have been derived within the text are highlighted by an asterisk adjacent to the equation number.

And joining them are four total strangers who, along with Rachel, have seen visions that most mortals can't imagine.
